

Medium Team of the Year

Winner: Merton LBC - Air Quality team at the Regulatory Services Partnership

Congratulations to Merton LBC, who blew the judges away with their innovative and proactive approach to improving air quality. The judges said they had reimagined the role of enforcement and had looked at system change in a way that is scalable. The judges said their out-of-the-box thinking and commitment to making a difference to public health is truly inspiring and was reflected in their approach to securing funding. It is clear that this project is not only a winner but also has the potential to be adopted elsewhere, bringing about real and tangible changes in our communities.
