Dear All

My name is _____ and live in Mitcham. I email you today about the objections of MM62 Mitcham Gasworks.

The main issue is

650 homes are too dense, too high, they are not in keeping with the area, they will cause overcrowded location, noise, parking issues etc.

This modification is based on "reflect local aspirations"

Local people and myself reject the plan of 9 storeys and all evidence has been the street audit, petition over 600 signatures and emails towards our councillors.

Our councillors included the green part give their own objection so I kindly ask you to object the MM62 plan Mitcham Gasworks.

Kind regards
